

MESSAGE FROM MARSHA

TOWN HALL MEETING

During the past three years with the help of hard working citizens throughout the district, we have successfully sponsored and passed legislation that provides additional benefits for our soldiers and their family members, protects our water, established K-12 military interstate compact, created an at-risk-high school Youth Challenge Program, provide job protection for our unsung hero's, and extended the statutes of limitations on vehicular homicide cases, just to mention a few.

Many issues are on our agenda for the upcoming session; additional cuts to the state budget, economic growth and jobs, health care, water and wind farms, education and taxes. While we look toward the future with enthusiasm and confidence, we know hard work, a steady hand and an optimistic patriotism is necessary to work our way back to prosperity.

In order for policy makers to get the pulse of a community it is valuable to know where you stand on issues such as Government – Reform, Economy, Energy, Environment, Health Care, Education, Crime and Values important to you and your family.

Your 2nd Amendment Rights, Freedom of Speech, Sanctity and Dignity of Human Life, Traditional Marriage, Tax Payer Protections (TABOR) and Property Rights are all being compromised by special interest groups. Your voice is important and we need to hear it! Please, share your opinion on these and all issues important to you and your family at the next Town Hall Meeting scheduled for Saturday, August 22, 2009 @9:00 – 11:00 at the Security Fire Department located at 400 Security Blvd in Security.

El Paso County Commissioner Denise Hisey, State Senator Keith King, State Representative Marsha Looper and Fire Chief Ski Stambaugh from Security Fire Department invite you to join us for coffee, donuts and a discussion about the future of Colorado and how it effects your family, freedom and liberties. Thank you for the honor to represent you in the Colorado House of Representatives!

Marsha Looper

Colorado State Representative HD#19
